SLIGHT VARIATION

Compliant with standards ANSI A137.1-2012
Every Atlas Concorde USA porcelain stoneware collection is PTCA Certified. Under the program, established jointly by the Porcelain Tile Certification Agency (PTCA) and the Ceramic Tile Distributors Association (CTDA), manufacturers can “prove” their product is really porcelain (meeting the water absorption criteria of the American national standard - ASTM C373).

LEED (Leadership in Energy and Environmental Design) is a rating system created to encourage the construction of “green” buildings. Developed by the US Green Building Council and internationally recognized, it points out the necessary requirements to build eco-compatible projects, capable of functioning in sustainable and autonomous way in terms of energy consumption as well as having a low environmental impact throughout their entire life-cycle. Atlas Concorde USA is a member of the US Green Building Council.

Atlas Concorde USA products are low-emitting materials with zero emission of volatile organic compounds (VOC). This can contribute to the awarding of 1 LEED credit.

Atlas Concorde USA is a member of TCNA, a trade association representing manufacturers of ceramic tile, tile installation materials, tile equipment, raw materials, and other tile-related products. The Tile Council is recognized for its leadership role in facilitating the development of North American and international industry quality standards to benefit tile consumers.

The Ceramic Tile Distributors Association (CTDA) is an international association of distributors, manufacturers and allied professionals of ceramic tile and related products. CTDA connects, educates and strengthens tile and stone distributors. Atlas Concorde USA is a member of CTDA.

### ALL PORCELAIN TILES

- **All Porcelain Tiles**
- Water Absorption: ASTM C373 ≤ 0.5% ≤ 0.5%
- Breaking Strength: ASTM C648 Average ≥ 250 lbf (1.11 kN), Individual ≥ 225 lbf (1.00 kN) ≥ 350 lbf avg
- Bond Strength: ASTM C482 ≥ 50 psi (0.34 Mpa) ≥ 100 psi
- Resistance to Freeze/Thaw Cycling: ASTM C1026 As Reported Resistant
- Chemical Resistance: ASTM C650 As Reported Unaffected
- Stain Resistance: ASTM C1378 As Reported Unaffected
- Dynamic Coefficient of Friction: DCOF Requires a minimum value of 0.42 for commercial areas that are likely to be wet > 0.42 Wet

---

(1) Whichever is less
(2) May not apply to textured surfaces or tiles with uneven back patterns.
(3) Whichever is less, for tiles up to 24"x24" (610 mm x 610 mm).
(4) Applies to tiles larger than 24"x24" (610 mm x 610 mm).
