ANSI A326.3 Product Use Classifications Reference Category Descriptions

INTERIOR, DRY (ID)	≥ 0.42 dry DCOF* per Section 10.1	Indoor shopping malls (except food courts), hotel lobbies, office buildings, showrooms, home interiors without water sources and other level areas where surface will be kept dry.
INTERIOR, WET (IW)	≥ 0.42 wet DCOF* (per Section 9.1) or Manufacturer Declared	Entry foyers, public restrooms (without showers) grocery stores, “front of the house” in fine and casual dining restaurants with a closed kitchen, home interiors including bathrooms and kitchens, and other areas where floors may be walked upon when wet.
INTERIOR, WET PLUS (IW+)	≥ 0.50 Wet Manufacturer Declared	Public showers, interior pools decks, locker rooms, covered exterior areas, steam rooms, “front of the house” applications in restaurants with an open kitchen, and in “front of the house” applications in quick service, fast-casual, and self-service restaurants, food areas in gas stations, and other similar areas where floors may be walked upon when wet.
EXTERIOR, WET (EW)	≥ 0.55 Wet Manufactured Declared	Level outdoor living spaces including pool decks, walkways, patios and sidewalks, where such floors may be walked upon when wet (excluding ice or snow).
OILS/GREASES (OG)	≥ 0.55 Wet Manufactured Declared	Level areas regularly exposed to automotive fluids “back of the house” fast food or family style restaurants, food preparation areas with grills or deep-fry equipment, and any area where oil, grease, and/or fats may be present so long.

**Manufacturer declared is not a standard, values declared are set by the manufacturer based on manufacturing parameters, internal quality control criteria, our experience with similar surfaces and the criteria of ANSI A326.3 standard.*
